KRB's Graduate Engineers Programme (KGEP) presents new promise for Graduate Engineers

Route to Professional Engineering

The Kenya Roads Board (KRB) has implemented a structured professional training programme whose aim is to enable young graduates gain hands-on professional experience under close supervision by senior registered professional members of the profession.

Under the Graduate Engineers Internship Programme (GEIP), trainee engineers are expected to undergo professional training, following training guidelines specific to one's field of engineering practice and also on non-technical areas.

KGEP is intended to ensure that trainee engineers are equipped to pursue their professional careers with precision and confidence thereby becoming competitive and able to effectively play their roles in national development.

In the last one year, 37 graduate engineers (7 Female and 29 Male) from local universities have benefited from the KGEP programme and have been posted to KRB and our partner Road Agencies (KENHA, KERRA, KURA and KWS) on completion of a 3 year programme, the graduate engineers will apply for registration as engineers with the Engineers Board of Kenya and enter into the professional engineering field.

“I am still gathering the relevant experience required and I am grateful to KRB for all the support it is giving to ensure that I am registrable in the shortest time possible.

Lynnette Kimani

“KRB is facilitating my placement in an actual project where I will do road designs and supervision of projects.

Venesia Manka

“I am deployed in KeRRA, Machakos, I am confident that through this programme I would get registered which was my ultimate goal.

**Caleb Mutua
Mathuva**

“The main purpose of this training is to gain professional experience as well as knowledge and be register with the Engineering Board.

**Arthur Kasili
Salim**

“I am privileged to work with Horn of Africa Gateway Development Project, it focuses on improving the connectivity and access to social services to communities in Isiolo-Mandera region.

**Judith Achieng
Odhiambo**

The National Industrial Training Authority (NITA) is a state corporation established under the Industrial Training Act of 2011. Geomaps Africa

Background

- Founded in 1983
- Provide Geospatial Engineering Solutions
- Have branches in Kenya, Uganda, Tanzania and Senegal
- Our headquarter is in Nairobi, Upperhill, Geomaps Centre building
- Visit our website at: www.geoafrica.com

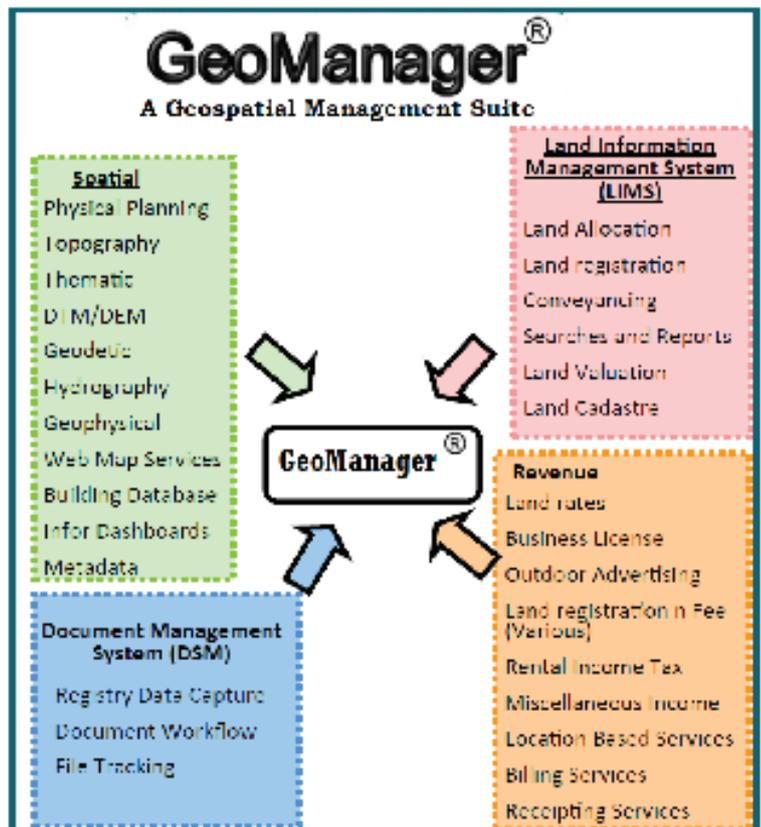

Our Products & Services

- Digital Aerial Photography
- Aerial LiDAR Mapping
- Digital Thematic Mapping
- Digital Topographic Mapping
- Geodetic GNSS Surveys
- Cadastral Surveys
- Geospatial Information Systems (GIS) Development
- Spatial Planning
- Hydrographic Surveys
- Revenue Enhancement using GIS
- Development of Geospatial Integrated Databases
- Mining and Quarrying Surveys
- Geophysical Seismic Mapping
- Engineering Control Surveys

Land Information Management System

GeoManager GIS is Geomaps owned application which was developed to form an integrated solution that addresses all government processes in *land information management and revenue collection*. It has four modules: *Land Information management System (LIMS)*, *Spatial*, *Revenues* and *Document management System (DMS)* It is enhanced to include:

- | | |
|-------------------------|------------------------|
| Land Registration | Building Database |
| Land Allocation | Document Workflow |
| Conveyancing | Rental Income Tax |
| Searches & Reports | Land Registration Fees |
| Business License | Billing Services |
| Outdoor Advertising | Payment Services |
| Land Valuation | Cadastral |
| Info Dashboards | Land Rates |
| Location Based Services | Cadastral |
| Receipting Services | Metadata |
| Registry Data Capture | File Tracking |
| Web Map Services | File Viewer |
