Working Group 3 - Mentoring

The Idea

To continue *tomorrow* we would like to strengthen the bridge between the professionals and the 'rookies' of the profession.

What is 'Mentoring'

- :: one way to ensure that knowledge is passed on to the next generation
- :: one sustainable way in inspiring young people through remembering about passion
- :: showing opportunities and giving responsibilities
- :: Challenges can be guided through the help of a colleague, good friend and *mentor*

How the FIG YSN wants to realise it

- :: create a database of mentor
- :: create a database of menthe
- :: link the experienced professionals with the 'rookies'

Danger: Success of mentoring is the responsibility of mentor and mentee
